LT-19930428-GDJ

FORM AND DESIGN FEATURES

LT-19930428-GDJ is a segmented wood vessel, sculpted with hand tools on a lathe. An overlapping transition in form occurs between the concave cylinder-shaped neck and sphere-shaped body, and a continuous transition in form occurs between the sphere-shaped body and disk-shaped base. The visible geometric motifs are formed with contrasting wood species that are integral to the walls of the vessel, and include: a band of alternating light-dark tiles, and a band of stepped bars.

SPECIFICATIONS AND VALUE

Wood Species Used: Red Gum, Cherry, Birdseye Maple, and Black Walnut

Number of Pieces: 93

Approximate Weight: 2.2 lbs

Overall Dimensions: 9"T x 8.75"DIA

Opening Diameter: 1.25 inches

Production Year: 1993

Original Value: \$700

Current Value: \$1,417
